| Gross revenue             | 42,430 | 39,678    | 6.9        | ▪ The four completed properties of the Acquisition Transaction(3) and the Beaulieu and Stanley Black & Decker facilities which achieved practical completion on 13 October 2017 and 17 November 2017 respectively contributed Adjusted NPI of A$1.9 million.  
▪ Full quarter’s contribution from the Martin Brower call option property which was acquired on 30 November 2016. |
| Adjusted net property income(2) | 33,391 | 30,666    | 8.9        | ▪ Due to higher borrowings of A$75 million drawn to finance the Acquisition transaction. Weighted average cost of borrowings for 1QFY18 and 1QFY17 was unchanged at 2.8% excluding upfront debt related expenses. |
| Finance costs             | (4,770)| (4,098)   | (16.4)     | ▪ Higher Adjusted Net Property Income;  
▪ Coupon interest income from the three development properties of the Acquisition Transaction; which were partially offset by:  
▪ Higher finance costs; and  
▪ Higher withholding tax paid on interest income and higher distributable income |
| Distributable income to Unitholders | 25,854 | 24,877    | 3.9        | ▪ Higher distributable income;  
▪ Higher hedged exchange rate of A$1.00:S$1.0583 (1QFY17: A$1.00:S$1.00); which were partially offset by:  
▪ Higher number of units in issue compared to 1QFY17(4); and  
▪ The Manager electing to receive 78.1% (1QFY17: 100%) of management fees in the form of units (For illustration and comparison purposes only, assuming 100% of management fees had been taken in the form of units, 1QFY18 DPU would have been 1.75 Australian cents (1QFY17: 1.74 Australian cents)). |

(1) The comparative figures are for the quarter from 1 October 2016 to 31 December 2016. These figures are extracted from Paragraph 1 of FLT's Financial Statements Announcement dated 3 February 2017.
(2) Net property income excluding straight lining adjustments for rental income and after adding back straight lining adjustments for ground leases.
(3) On 6 June 2017, FLT announced its first portfolio acquisition of seven industrial properties located in Australia comprising four completed properties and three development properties for an aggregate consideration of approximately A$169.3 million (the “Acquisition Transaction”).
(4) Due to the issuance of management fee units and the placement units for the Acquisition Transaction.
Distribution Policy

- FLT’s distribution policy was to distribute 100% of FLT’s Distributable Income for the period from 20 June 2016 (the “Listing Date”) to 30 September 2017. From FY2018, FLT will distribute at least 90.0% of its Distributable Income.

- Distributions will be made on a semi-annual basis for the six-month periods ending 31 March and 30 September. The actual level of distribution above 90% is to be determined at the REIT Manager’s discretion.

STRATEGY AND OUTLOOK

Lot 1, 2 Burilda Close, Wetherill Park, New South Wales
To invest globally in a diversified portfolio of logistics and industrial assets

- Deliver stable and regular distributions to unitholders
- Achieve long term growth in DPU

**Active Asset Management**

- **Proactive leasing:** Maintain high occupancy rate, long WALE and well-diversified tenant base
- **Asset Enhancement:** Assess and undertake AEIs\(^{(1)}\) on the FLT portfolio to unlock further value

**Selective Development**

- Selectively undertake development activities of properties complementary to the FLT portfolio
- Re-development of existing assets
- Sponsor’s development pipeline\(^{(2)}\)

**Acquisition Growth**

- Pursue strategic acquisition opportunities of quality industrial properties
  - **Sponsor’s ROFR:**
    - 16 assets in Australia (~ 407,000 sq m)
    - 25 assets in Europe\(^{(3)}\) (~ 970,000 sq m)
  - Third-party acquisitions

**Capital & Risk Management**

- Optimise capital mix and prudent capital management

---

(1) Asset Enhancement Initiative
(2) Only completed income-producing real estate assets which are used for logistics or industrial purposes are included in the ROFR
(3) Includes the United Kingdom
Economic Growth

- Australian economy has improved over 2017 with year-on-year GDP growth of 2.8%, consistent with the RBA’s expectation that growth in the Australian economy will gradually pick up over the coming year.
- The outlook for non-mining investment has improved further and reported business conditions are high.
- Increased public infrastructure investment has supported the economy, together with the continuing growth in exports to China.
- Population growth exceeded FY17 forecasts at 1.6%, underpinned by steady growth in net overseas migration.

Official Interest Rates

- The RBA maintained the cash rate at 1.5%.
- Australian government 10 year bond yields at 2.67%.

Unemployment Rate

- Low unemployment rate of 5.5% with workforce participation rate increasing to 65.7%
- Wage growth is expected to pick up gradually as the labour market strengthens.
Australian Industrial Market

- Australian industrial supply is above the long term average with robust additions recorded in 4Q17. Construction activity is predominantly concentrated in eastern seaboard cities, accounting for 1.5 million sqm or 93% of total development.

- Occupier demand has been strong in both pre-commitment and existing vacancies with year-to-date take-up levels totalling 2.4 million sqm (17% above the 10-year average).

- Australian investment volume remains below the 5-year average which reflects fewer assets available on the market. Given limited access to assets, portfolio sales have been highly sought after by institutional investors in order to gain scale.

- The positive spillover effects from infrastructure investment have been observed throughout 2017. Land value uplift has been realised across several markets, especially in Sydney’s Outer West.

Melbourne Industrial Market

- **Supply**: Supply levels throughout 2017 are 36% above the 10-year average with uptick in pre-commitment levels in the West.

- **Demand**: Leasing activity was subdued in 4Q17 however, annual gross take-up levels exceed the long term average and have been largely driven by demand for existing facilities in the West and the South East.

- **Rents**: Prime face rents have recorded growth over the year across all precincts (except for City Fringe).

- **Vacancy**: Net absorption remains positive as a result of good levels of tenant take-up in existing facilities, together with high levels of pre-commitment for new stock.

**Melbourne Industrial Total Supply**

**Melbourne Industrial Prime Grade Net Face Rents**

Sydney Industrial Market

- **Supply:** Above-average supply is forecast to continue in 2018 with a number of projects currently under construction, including Goodman's Oakdale Industrial Estate at Eastern Creek. However, a constrained supply of serviced land is likely to limit the amount of development activity post 2018.

- **Demand:** Gross take-up has well exceeded the 10-year average, predominantly driven by pre-lease deals as developer incentivised, tenant relocation options have been more attractive compared to lease renewals of leases.

- **Rents:** Steady rental growth continues in 4Q17 with a year-on-year growth averaging at 4.9% for all precincts.

- **Vacancy:** Vacancy across the market is recorded at its lowest level.

Supply: Total supply remains around the 10 year average.

Demand: Third party logistics players are driving the occupier market with majority of space leased in the Southern precinct. Tenants have continued to take advantage of competitive effective rents offered by landlords which allows for facility upgrades and expansion.

Rents: Prime face rents have dropped by 5.7% compared to 4Q16 but remain stable on a quarterly change; secondary rents continue to track sideways, particularly within the Northern precinct.

Vacancy: There has exhibited a sustained improvement in vacancy levels for new stock whilst secondary grade older facilities remain challenging.
